

We have two of your Typhoon class aerators and I would like to tell you I am very impressed with their quality and performance. They have held up far better than the previous aerators we had in service under adverse conditions. If you ever have a need for someone to go anywhere in the world to help assemble your WWTP let me know. I am very pleased with the design of your WWTP and can not wait to put in service. Thank you for building quality products.
